

# 2010

## Round 2

### Wroxton,

Once again this weekends track, has proven very popular with you all, and the adult groups have filled in under 2 days!

The paddock will be open on Saturday night and as its going to busy on the Sunday morning, no doubt the girls will be booking in as many as possible on the Saturday night.

There may be a little bit of track work to do on the Saturday afternoon and anyone who can spare 30 minutes, your help will be greatly appreciated. Remember the Committee are volunteers and it is YOUR club.

A gentle reminder to you all that we are a youth Motocross club and the committee would ask that all generators are switched off no later than 11pm.

Also please note that it is YOUR responsibility to clean up after yourself and take your own rubbish home with you. Anyone who is found to be leaving litter will have their points for the day removed.

This weekend sees the First Round of the Auto and Junior challenge, and this Mini series will see its own respective championship points accumulated separate from the club championship. (Obviously any points that are scored this weekend will also be included in the overall season haul).

Big thanks To Karl Hurst, at Windoor installation for sponsoring this round. Good on ya.

See you at the races

KSMXC
